NAME
     ppgvihdr - get address of pattern variable info header

SYNOPSIS
     #include <ppsubs.h>   /* pattern definitions and struct */

     struct PPVIHEADER *ppgviheader(viptr)
          PPATVI *viptr; /* pointer to the variable information */

DESCRIPTION
     This subroutine returns a pointer to the variable information
     header found in the variable information pointed to by viptr.

SEE ALSO
     pattern(5L)

DIAGNOSTICS
     ppgvihdr() produces no diagnostics.
